TODDINGTON: trains run from alternate platforms starting with Platform 1. Prior to taking trains, engines will wait in the vacant platform for photographs, cab visits and other activities.

WINCHCOMBE: Trains from Toddington will change engines at Winchcombe. The arriving engine will uncouple and wait in Platform 1. When the train has departed the engine will move into C&W sidings ready to take the following departure.

Trains from Cheltenham will arrive and depart using Platform 2. On Saturday evening this set will be left in Winchcombe Platform 2.

On Sunday the 08.45 ecs working will be L.E. to Winchcombe, then ecs from there. On Sunday evening the set will return to Toddington.

Whilst Platform 2 is vacant Toby will take "troublesome trucks" from PW sidings to Platform 2.
